For more information please call: Mr Luuk Hagting +31 620 705546

Triferto is a privately owned international wholesaler and producer of fertilizers, active in North West Europe, focussing on the Netherlands, Belgium, Germany and France. For our growth strategy we are strongly developing contacts outside our home markets. With a network of warehouses and a splendid logistical organisation, Triferto ensures the delivery of fertilizers of European and world-wide producers, through resellers to the farmers.

We produce in our factory Triferto Gent (Belgium), tailor made complex fertilizers. A number of our warehouses is equipped with fertilizer bulk blending facilities. Therefore we can deliver fertilizers in almost every composition.

Agronomists are available in order to give business partners accurate fertilisation advice. With eminent fertilizers, excellent logistics and long term knowledge of the market Triferto attributes to an efficient fertilization of crops.

Triferto employs 75 people, our headquarters are based in Doetinchem (Netherlands)
